Terms of Use for EroLabAI

Effective Date: October 17, 2025

EroLabAI owner: iosexpander@gmail.com
Lead Developer: borisbeliaev0@gmail.com

1. Overview

EroLabAI (the App) is a creative prompt assistant that helps users generate AI-based text responses across 12 predefined categories.
The app is designed to **narrow down the user's intent** by providing contextual templates, while giving users full control over the content of their prompts.

2. User-Generated Input

By using the app, you acknowledge that:

- You are responsible for the content you submit through the prompt input.

- The app does **not review, censor, or moderate** user-generated prompts.

- The AI responses are generated using the OpenAI API based solely on your input and may not always be accurate, appropriate, or useful.

If your prompt contains content that **violates OpenAI's usage policies**, the AI may return no response or a refusal message.

3. Inappropriate Use and Content Limitations

The following types of content may be flagged by the OpenAI API and may result in blocked responses:

- Hate speech or discriminatory language

- Harassment, threats, or targeted abuse

- Explicit adult or sexual content

- Self-harm, suicide, or violence promotion

- Misinformation or conspiracy theories

- Illegal activity, including drug use or fraud

- Requests for real person impersonation or deceptive behavior

Please note: Even though EroLabAI does not directly block such content, OpenAI may **automatically filter or restrict** responses that violate its usage policies.

4. Categories and Intended Use

EroLabAI offers 12 safe and general-purpose categories:

1   Felication

2   Letter of Support

3   Social Network Post

4   Answer for Letter

5   Speech for Performance

6   Song Writer

7   Product Description

8   Announcement

9   Love Letter

10   Script for Video

11   Comparison Table

12   Task Creating

These categories are curated to help users generate helpful and creative content. The app does **not encourage or support**the use of prompts that fall outside the scope of these categories.

5. AI Limitations

- All AI responses are generated through third-party services (OpenAI).

- The app does not guarantee the accuracy, legality, or safety of the generated output.

- The developers of the app are **not liable** for how users choose to interact with the AI or for the content they submit.

6. Age Restriction

The app is intended for users aged **17 and older**, due to the 'Love Letter' category and the open-ended nature of user prompts.

7. Subscription and Access

The app uses Apple's StoreKit for managing subscriptions. Access to full features may

require an active subscription. Subscription terms are managed via the user's Apple ID settings.

8. Modifications to Service

The developer reserves the right to update or modify the app's features, content categories, or these Terms at any time, with or without notice.
